Dear Stakeholders –

We have received work plans from Sunnyside Gold related to investigating surface and subsurface metal loading to the Animas River from above Arrastra Gulch to Silverton.

Attorney Client/Ex. 5

**Attorney Client/Ex. 5**

Please let me know if you are interested in receiving these files. They are pretty large, so I don't want to send them out to everyone. Sunnyside would like to receive comments on the plans as soon as possible.

I think we will all find their results quite interesting.
